# Introduction

## Empowering Clean Solar Energy

At **SOLCITY**, we believe solar energy is more than just a product — it's a powerful step towards energy freedom, environmental responsibility, and long-term savings. We guide our clients with knowledge, transparency, and personalized solutions — from the very first consultation to years after installation. Our goal is simple: to earn your trust, exceed expectations, and help you create a cleaner tomorrow.

We don't just install panels —  
**we empower homes, societies, and businesses to take control of their energy future.**

# Company **Vision & Mission**

## **Vision**

To build a brand that stands for trust, transparency, and lasting value.

When people hear “SOLCITY”, they should see a company that brings clarity, confidence, and care into every solar journey — improving lives, not just reducing bills.

## **Mission**

To make solar adoption simple, reliable, and widespread across India — empowering people to take control of their electricity, reduce their carbon footprint, and contribute to a greener nation.

Our mission is to turn every rooftop into a power source and every customer into a solar ambassador — shaping a greener and cleaner India together.

# How Solar Energy Works

✓  
Solar panels capture sunlight and convert it into Direct Current (DC) electricity.

✓  
Solar Inverter converts DC electricity into Alternating Current (AC) for use in Residential, Commercial and Industries.

✓  
Extra electricity is sent to the grid for credits through net metering or stored in batteries.

# Our Solar Solutions

01

## Residential Solar system installations

We design and install rooftop solar systems for individual homes—ensuring maximum savings and long-term reliability.

02

## Society & Group Housing Installations

End-to-end solar installations for housing societies and gated communities with shared benefits and easy subsidy access.

03

## Commercial and Industrial Solar systems

Custom solar setups for factories, hospital, offices, and commercial spaces that helps reducing electricity bills and increasing profits, enabling faster business growth.

04

## After-Sales Maintenance Support

We provide 3 years and 5 years of free maintenance — ensuring your solar system runs efficiently with just one call whenever you need support.

# Benefits of Solar Energy

## ✓ 25 Years of Free, Green Electricity

A one-time investment that gives you 25 years of freedom from electricity bills — empowering your home with clean, independent energy for life.

## ✓ Say goodbye to electricity bills

With solar, you no longer have to worry about rising energy costs — your rooftop becomes your personal powerhouse. Start saving today and build a smarter tomorrow for your family.

## ✓ Up to 40% Government Subsidy

Under PM Surya Ghar Yojana — save big on installation costs.

This scheme helps every home and society switch to clean energy while cutting long-term electricity costs.

## ✓ Best in ROI with great benefits

solar pays you back faster than most traditional investments, while boosting property value and building a cleaner future.

## Happy Customer's Success Stories

### Our Client

#### Gaurav Patil

As a builder, I wanted to offer long-term value to my buyers.

I chose SOLCITY for our Nivara Park project to offer lasting value. Their quality, speed, and pricing were spot on

### Our Client

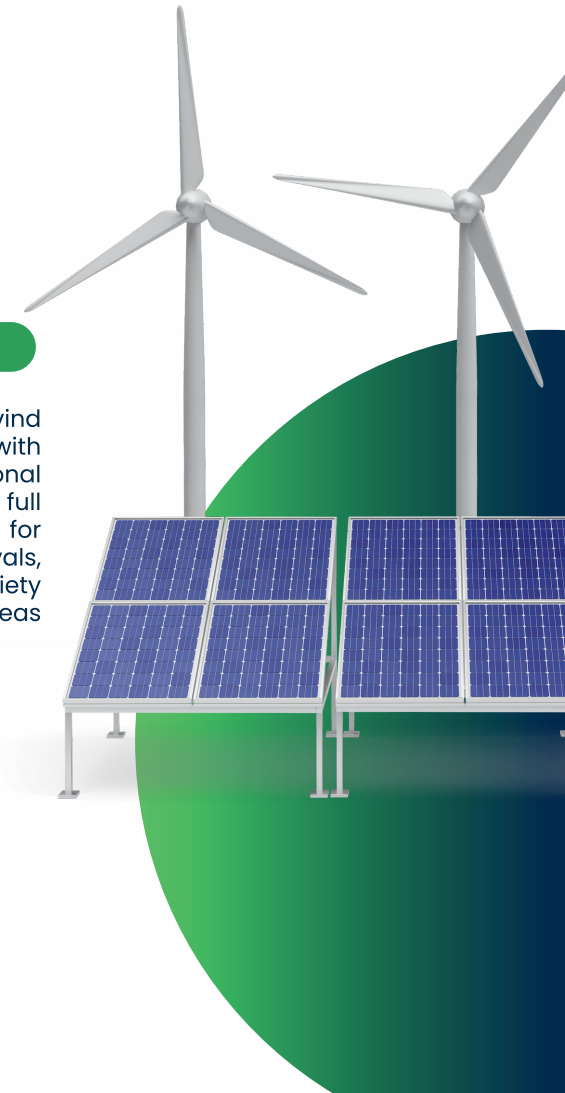

#### Govind Elite

"As Chairman of Govind Elite, I'm happy with SOLCITY's professional execution. They took full responsibility for installation, approvals, and savings. Our society now runs common areas on solar."

# Future of Solar Energy

As the world moves toward clean, self-sustaining power, solar energy is no longer an option — it's a necessity.

Rising electricity rates, climate change, and growing energy demands have made solar the smartest step forward. It's reliable, renewable, and already transforming rooftops into power plants across India.

With government support and advanced technology, solar is powering homes, businesses, and industries — silently, sustainably, and smartly.
